Yuxiang is a China diaper making machine supplier, and can offer baby diaper machine, diaper pad machine for producing incontinence products for baby and adult. By adopting gearwheel device, universal couplings and arc gear synchronous belt driving system, the diaper machines are full automatic. The driving components are installed on backboard of equipment to guarantee high driving accuracy and low mechanical consumption. The main press-cut rollers of the diaper machine adopt universal shaft driving with fast driving and lifetime guarantee of cutting tool. It can produce both economical and leakage-barrier products with L, M, S sizes. The usage of diaper pad can choose release paper sticker or waistline. SAP and pulp are mixed and added with adjustable amount of SAP. Products are vertically folded and then three-folded horizontally into square type and output in line.
