	2. Slim and soft ensures complete relaxation.
	3. Elegant embossed pattern design on web.
	4. Newly designed breathable backsheets effectively evacuate the dampness and keeps you comfortable.
	5. Anti microbial with small wings.

Here you have so many choices available about panty liner! We can offer many styles of panty liner to meet your need, such as **non-woven panty liner, anti-microbial panty liner, winged panty liners, thong panty liner, sports panty liner, super thin panty liner, disposable panty liner, panties liners, china panty liner, ultrathin panty liner** and so on.

Non-woven panty liner is similar to sanitary napkins in their basic construction, but is usually much thinner and narrower than napkins. As a result anti-microbial panty liner absorbs much less liquid than napkins, making it ideal for light discharge and everyday freshness, though generally unsuitable for menstrual flow or medium to heavy incontinence. Non-woven panty liner has a sheet of non-woven fabric which is comprised by a primary liquid-retaining panty liner. A liquid-impervious barrier layer is affixed to the sheet of non-woven panty liner. Anti-microbial panty liner can not only prevent body exudates from flowing to egress through the side of the panty liner, but also resist infection. The close-fitting curved flute trap enhances even absorption and instantly draws wetness. Winged panty liners have wings which wrap around the panty, providing additional stability.

You can choose non-woven panty liner, china panty liner, anti-microbial panty liner, panties liners, winged panty liners, super thin panty liner, ultrathin panty liner, disposable panty liner, thong panty liner, sports panty liner or any others for the sake of your need and convenience.
